## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

#### SUMMARY

##### 25X1D

25X1A

A military training area is located 8 kilometers (km) southwest of Stanislav (Figure 1) and 7 km east of Stanislav Army Barracks South. The area is served by several secondary roads from Stanislav, covers approximately 2,000 acres, and consists of a bivouac and range-support area containing approximately 14 buildings, a tracked-vehicle driver-training course, a moving-target tank firing range, a small-arms range, and an area of unidentified activity which may contain firing ranges (Figure 2).

A comparison of KEYHOLE missions from

reveals a general increase in the level of activity. The two areas containing the possible firing ranges and the small-arms range became active in , but on photography the level of activity was apparently decreasing. The moving-target tank firing range had two diagonal target runs added between and and is apparently receiving continual usage. This training area appears to be active only in the summer and fall months, since no activity is discernible on winter photography of .

#### DESCRIPTION OF INSTALLATION

##### Railroad Service

Rail service is available at Stanislav Army Barracks South.

##### Road Service

Secondary roads from Stanislav serve the training area.

##### Aircraft Landing Strip

Stanislav Airfield is 7 km west of the training area.

##### Other Buildings

Area H is a bivouac and range-support area containing approximately 14 buildings.

##### Small-Arms Firing Ranges

Area L1 is a 2,200- by 500-foot small-arms firing range.

Area L2 is a 1,800- by 500-foot probable small-arms firing range.

##### Driver-Training Area

Area M is a tracked-vehicle driver-training course containing one elliptical closed-circuit course. It was first observed in .

##### Tank/Assault-Gun Firing Range

Area N is a 4,100- by 2,600-foot tank/assault-gun firing range with three moving targets, one at 20 degrees, one at 10 degrees, and one at 90 degrees. The firing lanes and 90-degree moving target run were first observed in . The 10- and 20-degree target runs were added between and .
